

United States Department of State

Washington, D.C. 20520

SEP 20 2005

MB Industries, LLC
PO Box 809
Rayne, LA 70578

Attention: Patti McNeely

Dear Ms McNeely:

Based upon your request, a Department of State (DOS) technical representative witnessed the ballistic resistant and forced entry tests of the MB Industries, 60-minute FE/BR six-sided enclosure Model GPS-60R-DOS-01 and has also conducted a technical review of the required modifications.

The MBI GPS-60R-DOS-01 has been determined to meet the DOS certification criteria for 60-minute forced entry resistance and for ballistic resistance to 5.56 mm and 7.62 mm NATO rifle ammunition. Under the provisions of SD-STD-01.01, Revision G (Amended), *Certification Standard, Forced Entry and Ballistic Resistance of Structural Systems*, the GPS-60R-DOS-01 has been certified with a DOS code of 2133 and the DOS model number of GPS-60R-MBI-01. Please refer to the DOS model number in all correspondence with the Department of State.

The GPS-60R-MBI-01 will be placed on the DOS list of certified equipment which is available for use by architects and planners. Your product still has to compete with other bidding manufacturers who are certified with the same classification. We cannot guarantee that your product will be chosen by architects that design the facilities.

Thank you for your interest and endeavors in protecting our personnel and facilities overseas.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'D. Glass', written over the words 'Sincerely yours,'.

Deborah P. Glass
Director
Physical Security Division
Bureau of Diplomatic Security
